

Senate Bill No. 497

CHAPTER 120

An act to amend Section 1367 of the Health and Safety Code, relating to health care service plans.

[Approved by Governor July 27, 1997. Filed with
Secretary of State July 28, 1997.]

LEGISLATIVE COUNSEL'S DIGEST

SB 497, Brulte. Health care service plans: providers: prescribing controlled substances.

Under existing law, the Knox-Keene Health Care Service Plan Act of 1975, health care service plans are regulated by the Department of Corporations. Willful violation of those provisions is a crime.

This bill would prohibit a health care service plan from requiring registration under the federal Controlled Substances Act of 1970 as a condition for participation by an optometrist certified by the State Board of Optometry to use therapeutic pharmaceutical agents.

By changing the definition of a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The people of the State of California do enact as follows:

SECTION 1. Section 1367 of the Health and Safety Code is amended to read:

1367. Each health care service plan and, if applicable, each specialized health care service plan shall meet the following requirements:

(a) All facilities located in this state including, but not limited to, clinics, hospitals, and skilled nursing facilities to be utilized by the plan shall be licensed by the State Department of Health Services, where licensure is required by law. Facilities not located in this state shall conform to all licensing and other requirements of the jurisdiction in which they are located.

(b) All personnel employed by or under contract to the plan shall be licensed or certified by their respective board or agency, where licensure or certification is required by law.

(c) All equipment required to be licensed or registered by law shall be so licensed or registered and the operating personnel for that equipment shall be licensed or certified as required by law.

(d) The plan shall furnish services in a manner providing continuity of care and ready referral of patients to other providers at times as may be appropriate consistent with good professional practice.

(e) (1) All services shall be readily available at reasonable times to all enrollees. To the extent feasible, the plan shall make all services readily accessible to all enrollees.

(2) To the extent that telemedicine services are appropriately provided through telemedicine, as defined in subdivision (a) of Section 2290.5 of the Business and Professions Code, these services shall be considered in determining compliance with Section 1300.67.2 of Title 10 of the California Code of Regulations.

(f) The plan shall employ and utilize allied health manpower for the furnishing of services to the extent permitted by law and consistent with good medical practice.

(g) The plan shall have the organizational and administrative capacity to provide services to subscribers and enrollees. The plan shall be able to demonstrate to the department that medical decisions are rendered by qualified medical providers, unhindered by fiscal and administrative management.

(h) All contracts with subscribers and enrollees, including group contracts, and all contracts with providers, and other persons furnishing services, equipment, or facilities to or in connection with the plan, shall be fair, reasonable, and consistent with the objectives of this chapter. All contracts with providers shall contain provisions requiring a dispute resolution mechanism under which providers may submit disputes to the plan, and requiring the plan to inform its providers upon contracting with the plan, or upon change to these provisions, of the procedures for processing and resolving disputes, including the location and telephone number where information regarding disputes may be submitted.

(i) Each health care service plan contract shall provide to subscribers and enrollees all of the basic health care services included in subdivision (b) of Section 1345, except that the commissioner may, for good cause, by rule or order exempt a plan contract or any class of plan contracts from that requirement. The commissioner shall by rule define the scope of each basic health care service which health care service plans shall be required to provide as a minimum for licensure under this chapter. Nothing in this chapter shall prohibit a health care service plan from charging subscribers or enrollees a copayment or a deductible for a basic health care service or from setting forth, by contract, limitations on maximum coverage of basic health care services, provided that the copayments, deductibles, or limitations are reported to, and held unobjectionable by, the

commissioner and set forth to the subscriber or enrollee pursuant to the disclosure provisions of Section 1363.

(j) No health care service plan shall require registration under the Controlled Substances Act of 1970 (21 U.S.C. Sec. 801 et seq.) as a condition for participation by an optometrist certified to use therapeutic pharmaceutical agents pursuant to Section 3041.3 of the Business and Professions Code.

Nothing in this section shall be construed to permit the commissioner to establish the rates charged subscribers and enrollees for contractual health care services.

The commissioner's enforcement of Article 3.1 (commencing with Section 1357) shall not be deemed to establish the rates charged subscribers and enrollees for contractual health care services.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.
